PROJECT PROPOSAL

2026-01-20

Project Organizer: SSC

Support: College of Engineering

Project Title: Empowering Students Through Digital Literacy Workshop

Lead Facilitator: Dr. Alex M. Rivera

Rationale: In today's technology-driven environment, students are expected to possess strong digital skills to remain competitive academically and professionally. This project aims to address gaps in digital literacy by providing hands-on training and guided activities that enhance students' competence and confidence in using digital tools responsibly and effectively.

Objectives: To improve students' understanding of essential digital tools and platforms

- To develop responsible and ethical use of technology
- To enhance productivity, collaboration, and problem-solving skills using digital resources

Intended Learning Outcomes: Students will be able to demonstrate basic to intermediate proficiency in common digital applications

- Students will apply safe and ethical practices in digital environments
- Students will create simple digital outputs such as presentations, documents, or online portfolios
